Biogeosciences Discussions

Interactive comment on "Anaerobic oxidation of methane in grassland soils used for cattle husbandry" *by* A. Bannert et al.

A. Bannert et al.

andrea.bannert@helmholtz-muenchen.de

Received and published: 7 August 2012

The reviewer is completely right that further analyses using molecular techniques are needed to confirm this data. Therefore we adjusted the final sentence of our discussion part: "Further molecular analyses, including sequencing approaches, are necessary to characterize anaerobic methane oxidizers in different soils."
