In the paper “Implementation of dynamic crop growth processes into a land surface model: evaluation of energy, water and carbon fluxes under corn and soybean rotation” by Y. Song et al. (Biogeosciences, 10, 8039–8066, 2013), the following error occurred: the second sentence of the caption of Appendix Table A1 was left out. The caption is now modified as follows: Table A1: Variables and parameters that appear in the model equations. The first parameter value in the “Value” column is for corn and the second value is for soybean.
