In the paper “Scaling impacts on environmental controls and spatial heterogeneity of soil organic carbon stocks” by Mishra and Riley (Biogeosciences, 12, 3993–4004, doi:10.5194/bg-12-3993-2015), the caption of Fig. 5 contains an incorrect equation. The equation we wrote by mistake is as follows: SOC variance = $260.61 + 422.42 \times \exp(-0.0318 \times s)$, adjusted $R^2 = 0.98$, $P < 0.001$. The correct equation should be as follows: SOC variance = $260.61 + 422.42 \times \exp(-0.0138 \times s)$, adjusted $R^2 = 0.98$, $P < 0.001$.
