4 **Figure S1.** Average NEC, NEP_{DIC}, and NEP_{DO} during day and nighttime periods for a) high-
5 density and b) low-density sites, and c) expressed as a total for the study period. NEP values are
6 shown for upper and lower estimates of k_{600} , from Raymond and Cole 2001 (RC01), and Ho et
7 al., 2006 (Ho06) respectively. Error bars represent uncertainty due to advection as described in
