**Figure S 1.** Shanon-Wiener (SW) diversity index of diatoms calculated using frustules from the surface sediments of the central Arabian Sea.

**Figure S 2.** Bray- Curtis similarity index between different diatom genera from the surface sediments of the central Arabian Sea.

**Table S 1.** Absolute abundance (AA) of diatom frustules (valves g<sup>-1</sup> dry sediment) and their relative abundance (RP %) in the surface sediments (0.5, 1 cm) from 5 locations in the Central Arabian Sea (average ± SD, n = 2).

Locations	21° N		19° N		15° N		13° N		11° N
