

***Interactive comment on “The impact of oceanic circulation and phase transfer on the dispersion of radionuclides released from the Fukushima Dai-ichi Nuclear Power Plant” by Y. Choi et al.***

**Anonymous Referee #2**

Received and published: 18 March 2013

The paper has improved very much since the first version. I add a comment:

Fig.2 (a), Fig.4, Fig.6 and Fig.9 The information about sampling depth would be helpful for the reader. For example, in Fig.2(a), you should write ‘Concentrations of radionuclides in (a) surface seawater’.
