

Interactive comment on “Greenland Ice Sheet exports labile organic carbon to the Arctic oceans” by E. C. Lawson et al.

B.ÂaA. Bergamaschi (Editor)

bbergama@usgs.gov

Received and published: 31 March 2014

The reviewer comments seem straightforward and tractable, and your responses seem adequate if implemented as described. However, in addition, in the revised manuscript, please include uncertainty estimates in your flux calculations.
