**Revision notes manuscript BG-2014-561**

Dear editor,

Please find enclosed a revised version of the manuscript BG-2014-561 “A simple method for vaterite precipitation for isotopic studies: implications for bulk and clumped isotope analysis”.

After careful consideration of the reviewers' comments and addressing their major and minor concerns in text and figures, we believe that we have significantly improved the manuscript. The revision strictly follows the comments and replies posted in the interactive discussion. Changes to the manuscript are highlighted in red. We hope you will find the revised manuscript to be suitable for publication in *Biogeosciences*.
