Autors comments to the Editors initial decision

<u>Editor</u>

Comment 1

You still refer to the generalized linear model, rather than ANOVA in the cautions of Tables 1 and 2, please correct.

→ Thank you for noting this. The cautions of Tables 1 and 2 were corrected.

Comment 2

Table 1 is truncated. Please check carefully before submitting the final (non-truncated) version.

→Table 1 was checked carefully and was split in two parts, in order to fit on the pages.
