

Interactive comment on “A downward CO₂ flux seems to have nowhere to go” by J. Ma et al.

P. van Bodegom (Editor)

p.m.van.bodegom@vu.nl

Received and published: 29 September 2014

I appreciate the replies given by the authors in response to the referees' comments. I did have the impression though that not all comments of the second reviewer were answered or replied to. Please take notice thereof when revising your manuscript.
