Received and published: 17 November 2014

I have been made aware, via an e-mail from Nicolas Metzler, that there is an error in the representation of the biomes in Figures 2-4. Only the map is incorrect, so by using the names printed on each sub-plot in Figures 2-4 along with Figure 1 the reader will be able to tell which biome each data plot with trends represents.

The correct figures are attached to this comment.

This is entirely my fault and I apologize for any inconvenience this causes the readers.

S. K. Lauvset
