

Response to editor's comments.

Thank you very much for your response. We tried to find other papers that included yield-scaled emissions in Africa, but couldn't. Which is why we decided to just include papers that provide yield data. But we agree that the Table did not add anything to the paper and have removed the table as you suggested. The changes to the document are as follows:

1. Line 571-572. Removed the reference to "Table 4" and added the references to the studies on crop yields.
2. Removed Table 4.

We trust that this is now sufficient.

Kind regards,
