

Title: Water column biogeochemistry of oxygen minimum zones in the eastern tropical North Atlantic and eastern tropical South Pacific Oceans

Author(s): C. R. Löscher et al.

MS No.: bg-2015-30

MS Type: Reviews and Syntheses

From your replies to referee comments, the responses appear to satisfactorily attend to the issues raised. However to include all these proposed responses, a revised version requires major revision in both content and construction, including additional figures. The revised version will then be reconsidered for publication.
