Received and published: 2 April 2015

A few comments: - p 3355, line 5: IUSS Working Group WRB, 2006 is missing in the reference list. - p 3360, section 3.1: please refer to a figure or a table showing the data. - Figure 1: provide coordinates to better locate the catchment. - Figure 2: oddly, the dashed line doesn't appear on some pdf reading softwares (e.g. Adobe Acrobat plug-in for Firefox, version 11.0.4.63).
