Dear Editor and reviewers, Thank you for your precious and constructive comments and changes for improving our manuscript. As you can see from changes in the “Comparison_of_the_MainText.docx”, “Comparison_of_the_Figures.docx”, and the responses highlighted in blue in the “Response Letter_v4_09102015.docx”, we have carefully revised the main text (“CLM_PiTS_v9_09102015_Biogeosciences.docx”) and the figures (“CLM_PiTS_v9_figs_09102015_Biogeosciences.docx”). We do appreciate your wonderful ideas and insights, which made us rethink the whole picture and improve the quality of our paper. Thanks, Jiafu Mao and coauthors.
