

***Interactive comment on “Mussel shells of *Mytilus edulis* as bioarchives of the rare earth elements and yttrium distribution in seawater and the potential impact of pH and temperature on the partitioning behaviour” by A. Ponnurangam et al.***

**Anonymous Referee #1**

Received and published: 3 November 2015

Dear authors,

After I posted my review, the following paper has been published in Chemical Geology:

<http://www.sciencedirect.com/science/article/pii/S0009254115300620>

Please, consider it in the new version of your manuscript.
