

Interactive comment on “Improved end-member characterization of modern organic matter pools in the Ohrid Basin (Albania, Macedonia) and evaluation of new palaeoenvironmental proxies” by J. Holtvoeth et al.

B. Wagner (Editor)

wagnerb@uni-koeln.de

Received and published: 8 December 2015

Both reviewers provided valuable comments and suggestions with minor to moderate revisions of the manuscript. After having read the reply letter of the authors and the revised version, I feel that the authors have dealt with the comments in a satisfactory way and the manuscript has improved.

Please find attached some minor, mostly technical corrections, which need to be addressed when submitting the final revised manuscript. Check also Matzinger et al.,

C8360

2006 and Jordanska et al., 2010 (both not in the References) in the Supplement 2, the spelling of St Naum or St. Naum, and the alphabetical order in the References (Schwalb et al., 2013 and Sherwin et al., 1993).

Best regards,

Bernd Wagner
