Dear Prof.,

Pleased find enclosed our revised MS and the responses to the comments below. We thank very much for your kind and positive words of our manuscript. Both suggestions and criticisms are very valuable and helpful for revising and improving our MS. Below, we have addressed all of the comments and made corresponding revisions in the MS which were marked in red. We hope that you will agree that our MS is now improved and fulfills the requirement for publication in Biogeosciences.

Yours sincerely, Jingli Mu
