

## ***Interactive comment on “Soils apart from equilibrium – consequences for soil carbon balance modelling” by T. Wutzler and M. Reichstein***

**T. Wutzler and M. Reichstein**

Received and published: 5 February 2007

We want to thank the editor for his comments and for pointing out the obstacles in language and figures to the reader.

The points have been addressed in a revised version of the paper. In accordance with the short comments and the editor, we thoroughly improved the readability. We reformulated the headings and re-structured or re-formulated parts of the introduction and the discussion.
