Interactive comment on “Consequences of respiration in the light on the determination of production in pelagic systems” by O. Pringault et al.

O. Pringault et al.

Received and published: 6 November 2006

1/ The terminology used for metabolic processes has been changed according to the recommendations.

2/ We looked for the paper of Langdon et al (1993), unfortunately we cannot find it as it is in an ICES publication no longer in print. Nonetheless, we have cited several other easily accessible publications that discuss the issue of light vs dark respiration.
