

Interactive comment on “Growth and specific P-uptake rates of bacterial and phytoplanktonic communities in the Southeast Pacific (BIOSOPE cruise)” by S. Duhamel et al.

S. Duhamel et al.

Received and published: 14 September 2007

We thank the referee 2 for his comments which underline the potential complications when assessing growth rates using P-based or C-based estimates but remind the interest of using such alternative approaches when direct measurements are difficult to carry out.
