Introduction to the special section Bio-optical and biogeochemical conditions in the South East Pacific in late 2004: the BIOSOPE program. Claustre, Sciandra, Vaultot.

This is an excellent introductory paper for the special issue of Biogeosciences about scientific results acquired during the BIOSOPE cruise. This paper goes beyond the usual summary by providing a synthesis of the oceanographic conditions of the trophic regimes in the South East Pacific Ocean. A few editorial issues have to be fixed: 1)
