

Interactive comment on “Microbiology and atmospheric processes: an upcoming era of research on bio-meteorology” by C. E. Morris et al.

C. E. Morris et al.

Received and published: 2 March 2008

On behalf of all of the authors of this paper, we thank the referees and others who have submitted comments. They have been constructive and helpful. In this message we will not address them point by point. We simply want to communicate our appreciation for the interesting discussion this all has fostered. All of these comments will all be taken into consideration during the revision.
