## ***Interactive comment on “Selective preservation of organic matter in marine environments – processes and impact on the fossil record” by K. A. F. Zonneveld et al.***

**C. Walters**

clifford.c.walters@exxonmobil.com

Received and published: 6 July 2009

On pages 6380-6381, the paper states "McKenna et al. (2009) recently identified vanadyl porphyrins in raw crude oil using FTMS".

I wish to call to your attention that my colleagues have prior claim to this observation.

Qian, K., Mennito, A.S., Edwards, K.E. Ferrughelli, D.T., 2008. Observation of vanadyl porphyrins and sulfur-containing vanadyl porphyrins in a petroleum asphaltene by atmospheric pressure photoionization Fourier transform ion cyclotron resonance mass spectrometry. Rapid Communications in Mass Spectrometry 22, 2153-2160.
