Dear authors and reviewers,

I thank you for your contributions in this open review process. It shows how complicated the ocean carbonate chemistries "ins and out" are, even to specialists.....I ask the authors to respond to the last review by Andy Ridgwell. Apparently, some important issues need to be clarified before I can decide on publication in BG. I'm looking forward to your reply.

all the best,

C2129

Jelle Bijma
