Interactive comment on “Influence of landscape heterogeneity on spatial patterns of wood productivity, wood specific density and above ground biomass in Amazonia” by L. O. Anderson et al.

Anonymous Referee #2

Received and published: 8 April 2009

I have looked over the manuscript, and in my opinion, it will be an fine contribution to BG. The authors may want to consider to what extent the biophysical parameters of interest necessarily vary with features that can be identified on Landsat imagery.
