

Interactive comment on “Vegetation and proximity to the river control amorphous silica storage in a riparian wetland (Biebrza National Park, Poland)” by E. Struyf et al.

E. Struyf et al.

Received and published: 9 April 2009

On behalf of all the authors, I want to thank the referees for their positive comments on and appreciation of our manuscript.

As also stated by the referees, we hope our manuscript will inspire others to study Si cycling in wetlands.

We will soon submit a final version of our paper to BG.
