We wish to thank Biagio Giaccio for its useful suggestions/comments to the manuscript. The reviewer rose some points that will be explained or corrected in the following.

- Taurano tephra: we accepted the suggestions of the referee about the Taurano tephra, and we modified the Figures 6 and 8 (see reply to A. Newton) and the discussion section accordingly - Technical points: we fixed the points in the main text

On the behalf of the Authors Roberto Sulpizio
