We thank the three reviewers and the contributor for their careful assessment of our manuscript and their valuable feedback. We have done our best to incorporate the suggestions in our manuscript whenever possible. Our detailed reply can be found in the supplementary PDF and will show how our revised manuscript will cover these points. Our reply to the reviewers points (in black font) are given in blue text.

C2470

We hope that with these revisions our paper can be accepted for publication in Biogeosciences.

On behalf of all authors

Werner Eugster
