Received and published: 22 September 2011

We thank both referees for the constructive comments. We have now modified the manuscript accordingly; attached are detailed responses on each comment. The referee comments have been marked with a short line (–) and the response with an asterisk (*). Citations in the response are in italics. The page and line numbers, as well as the references to figures refer to the revised version of the manuscript. We hope that you agree with us that the manuscript has now improved and is worth of publishing in BG.

Please also note the supplement to this comment:

C3193
