13 **Figure S1.** Soil and plant sample sites, Central Range, Taiwan and place names referred to in
14 the text (Sec. 2). The major rivers are overlain on a 40x40m grid digital elevation model used
15 to compute topographic slope at each sample site.
16
17

1 **Table S1.** Characteristics for the sample sites in the Central Range, Taiwan, numbered
 2 sequentially by elevation. Shaded box indicates sample collection for soil (A-E horizon), pine
 3 (*P. morrisonicola*) and grass (*Cymbopogon* sp.).

| Lat. | Long. | Site # | Elevation (masl) | Hillslope angle (°) | MAP ^a (mm) | Soil | Pine | Grass |
