I want to thank Reviewer 1 for their comments. The comments appear addressable, but I am having some difficulty in matching page and line numbers (e.g., page 15, line 19) with the online version of the manuscript (which starts on page 4543). Even if I go to page 15 of the online version (i.e., page 4557), I don't seem to be able to match up the comment with the text in the online version. Any feedback to help us reconcile the page and line numbers referred to in the review and the online version of the manuscript is appreciated. Dave McGuire
