Received and published: 22 July 2012

We thank all reviewers for their constructive comments and are glad that both reviewers found our study interesting and suitable for publication in Biogeoscience after some revision. A detailed response to the various issues that were raised by the reviewers is provided in the supplemented response.zip archive-folder. This folder contains i) a detailed response, ii) a manuscript with all changes highlighted ('tracked'), iii) a manuscript for resubmission and iv) a document with all figures and their captions.

Please also note the supplement to this comment:

C2651
