Interactive comment on “Diversity of cultured photosynthetic flagellates in the North East Pacific and Arctic Oceans in summer” by S. Balzano et al.

S. Balzano et al.

sergio.balzano@flinders.edu.au

Received and published: 5 September 2012

Dear Biogeosciences Editor

Thanks for considering our manuscript, we improved the quality of our manuscript and made the modifications required by the referees. Briefly we removed figure 1 as it was redundant with Table 1, we edited the discussion and wrote a short conclusion. Detailed responses are published next the referees comments.

best regards

Sergio Balzano
