Received and published: 6 March 2013

We are grateful to both anonymous referees for their general appreciation of our study and for providing helpful suggestions and comments both major and minor. In the revised manuscript we have taken into consideration all the comments. We believe that the changes have helped to greatly improve the manuscript, and we hope that these changes can fully satisfy both reviews. Our detailed responses to each reviewer are attached as an additional PDF file.

Please also note the supplement to this comment:

C8833
