

Interactive comment on “Ideas and perspectives: Heat stress: more than hot air” by Hans J. De Boeck et al.

H. De Boeck

hans.deboeck@uantwerpen.be

Received and published: 15 May 2016

An elaborate response will follow in the full revision where we will address the points raised by referee 1. Please note that the model was already validated (De Boeck et al. 2012, *New Phytologist*) on the same kind of vegetation as used in the short field test in the current study.
