Received and published: 18 July 2016

Attached are the detailed responses, on behalf of all authors, to the two reviews of the manuscript. We greatly appreciate the detailed comments and suggestions provided by these reviewers, and we feel that the changes made have led to significant improvements in all elements of the revised manuscript (i.e. the text, tables and figures). As a result, we have added a sentence to the acknowledgements section to personally thank the reviewers for their efforts.

Please also note the supplement to this comment:
