Received and published: 1 June 2016

Dear reader,

In the discussion paper has been an inversion of the figures 7 and 8.

Instead of being figure 8, the calcium profiles should be figure 7 (as they are presented first in the text) and the sulfate and saturation profiles should be figure 8 instead of being figure 7.

This mistake will be corrected in the revised version of the paper. I apologize profusely for this confusion,

C1

Jens Rassmann
