1 **Supplement Tables**

2 **Table S1.** Shannon diversity index of bacterial (BD), fungal (FD) and archaeal (ArD)
 3 of soil size fraction of the studied chronosequence. Different capital and low case
 4 letters in a single column indicate a significant ($p < 0.05$) difference respectively
 5 between fractions of a single soil, and between soils for a single fraction.

Size fraction	Soil	BD	FD	ArD
Coarse sand	P0	2.06±0.36 Abb	1.90±0.12 Ad	1.24±0.07Ab
