

Dear Editor Dr. Richard,

Many thanks for your kind suggestions! We would like to process the correction of this manuscript entitled "Flower litters of alpine plants affect soil nitrogen and phosphorus rapidly in the eastern Tibetan Plateau" (bg-2016-68), which can be noticed in the revised version with yellow color highlighted for your consideration. Line 90 has been deleted for better reading and understanding. We are looking forward to your reply.

Thanks again for your time, and have a good day.

Jinniu Wang on behalf of all co-authors
