Responses to the editor on the final minor corrections

We would like to thank the editor for these final comments.

1. We have changed the title to the following: '*Hotspots of gross emissions from the land use sector: patterns, uncertainties and leading emission sources for the period 2000-2005 in the tropics*'

2. We have substituted 'gross/net assessments' by 'assessments of gross/net emissions' along the text.

Kind regards

Rosa Maria et al.
