Received and published: 11 May 2017

Dear Authors

Your manuscript has been assessed by all four nominated referees. All referees find your study of interest and offer advice for further improvements of your manuscript.

I kindly ask you to prepare a reply to the referee's comments. The reply should also document how you will take into account the comments and criticisms in a revised manuscript.

The interactive discussion will stay open for the public until May 25 and additional comments may still be submitted by the scientific community.
