

Interactive comment on “Flocculation of dissolved organic matter controls the distribution of iron in boreal estuarine sediments” by Tom Jilbert et al.

Tom Jilbert et al.

tom.jilbert@helsinki.fi

Received and published: 30 September 2017

Dear referees,

We wish to thank you for the careful consideration of our manuscript. Please find in the attached document detailed responses to each of your comments. Because our responses to Referee #1 and Referee #2 cross-reference each other substantially, we have uploaded a single document. The responses to Referee #1 are found on pages 1-13; responses to Referee #2 on pages 14-20.

Kind regards on behalf of all co-authors,

Tom Jilbert University of Helsinki, Finland

C1
