I am unclear how the data in Paterson et al. (2015) supported LULC change in Indonesia as was stated in the manuscript. The authors should clarify. They could also write LULC in full at first with the abbreviation in brackets afterwards.

The English could be tightened up in parts of the paper. E.g. they start sentences with "We" on lines 31 and 34. Also, this is not the passive voice. Similarly, "Our" lines 40 and 43. Line 57: "in the past decades" is imprecise and clumsy. Lines 66-69: Three "and"s are used in this sentence. Not the best English. Line 75: Replace "rise" with "increase". Line 94-96: You should not have to explain what the "vice versa" is. Anyway, I will stop there as its too much work to point out other such smallish things.

C1

Maybe you consider these unimportant...
