

Interactive comment on “An empirical method for absolute calibration of coccolith thickness” by Saúl González-Lemos et al.

X. Jin

386jinxiaobo@tongji.edu.cn

Received and published: 17 August 2017

Page 4, line 12: "one is located between the lower linear polarizer and the condenser and the other one above the upper linear polarizer" the other one should be below the upper linear polarizer.
