

Interactive comment on “On the potential causes of the recent Pelagic Sargassum blooms events in the tropical North Atlantic Ocean” by Sandrine Djakouré et al.

Anonymous Referee #3

Received and published: 1 February 2018

Please find the general and specific comments to the manuscript text in the attached file. The text needs substantial improvements, despite the relevance of the subject to improve our knowledge about the tropical Atlantic Ocean.

Please also note the supplement to this comment:
