Dear Ximing Wang,

Please find the corrected pdf of our manuscript, titled “Estimation of isotope variation of N<sub>2</sub>O during denitrification by *Pseudomonas aureofaciens* and *Pseudomonas chlororaphis*: Implications for N<sub>2</sub>O source apportionment”. We have provided the corrected version from the previous reviews as there were no other requested changes available. We thank you for working with us during the review process.

Sincerely,

Joshua A Haslun
