Received and published: 14 June 2018

Dear authors,

As I had real difficulties in finding additional reviewers for your manuscript I consulted the Chief Editors of Biogeosciences. Based on the comments of the reviewers of the former version and our own assessment we have jointly decided to reject your manuscript as out of scope for Biogeosciences. We think that your manuscript is primarily a physical oceanography study and recommend submitting it to a more specific journal, such as Ocean Science.
