Dear Dr Henderson,

We thank the two anonymous reviewers for their very constructive reviews of our paper “The ^{226}Ra -Ba relationship in the North Atlantic during GEOTRACES-GA01”. We have considered all their comments and made the modifications in the manuscript. We think that the scientific results are now better exposed in the revised manuscript. In the following, we answer to each comment of the two reviewers. The referee comments are in blue and our answers are in black.

Please also note the supplement to this comment:
