

Interactive comment on “Global change effects on decomposition processes in tidal wetlands: implications from a global survey using standardized litter” by Peter Mueller et al.

Peter Mueller et al.

peter.mueller@uni-hamburg.de

Received and published: 26 February 2018

We thank all three reviewers as well as the author of the Interactive Comment for their constructive comments and suggestions. In the Supplement to this post we respond to each of these separately. Unless stated otherwise, we intend to incorporate these changes into a final version of the manuscript.

Please also note the supplement to this comment:
